## EXPERIENCE

### USPS, San Mateo, CA — Software Developer

July 2020 - Current

- Added to a project to ensure it finishes within the deadline..
- Task was to rewrite a VB app to web and include admin features.
- Managed scrum meetings and created a Single Page App with web technologies..
- Outcome: Completed the VB to web rewrite within 1 month.

### Epic Systems, Verona, WI — Software Developer

August 2018 - 2020

- Put into a single person project to reduce time taken to run a SQL script.
- Goal was to reduce time taken to run this script from 8 to less than 4 hours.
- Updated queries to implement company-specific multithreading API.
- Outcome: Reduced time taken to run scripts to less than 30 minutes.

### AppDialog, San Jose, CA — Xamarin Developer

January 2017 - 2018

- Joined a team to provide android dev support for a mobile app.
- Needed to add/ modify features and ensure compatibility with android phones.
- Wrote android compatibility code and introduced agile methodology to the team.
- Outcome: Ensured android compatability to xamarin mobile app.
